Professional Summary

Computer Science Engineering student (CGPA: 9.27) with experience delivering end-to-end technical projects, coordinating cross-functional stakeholders, and solving ambiguous operational problems. Proven ability to translate real-world requirements into production solutions, manage competing constraints, troubleshoot critical roadblocks, and deliver projects on schedule. Combines strong analytical and technical foundations with hands-on experience in product delivery, process improvement, and stakeholder coordination.

Education

Vellore Institute of Technology (VIT) **2023 – 2027**
B.Tech, Computer Science and Engineering | ***CGPA: 9.27 / 10*** *Vellore, Tamil Nadu*

Experience

Marwadi Shares & Finance Ltd. (MSFL) **May 2025 – Jun 2025**
Application Development Intern *Rajkot, Gujarat*

- Owned frontend development and operational rollout of MChat, an enterprise real-time communication platform supporting 150+ concurrent users, coordinating application requirements with existing backend infrastructure.
- Navigated ambiguous UAT connectivity failures by performing root-cause analysis on SSL certificate and WebSocket negotiation issues, evaluating transport alternatives and implementing Long Polling to maintain reliable communication.
- Improved application reliability by implementing automated recovery mechanisms for connection failures, including heartbeat monitoring, keep-alive handling, and application lifecycle synchronization.

Centre for Social Entrepreneurship and Development (CSED), VIT **Apr 2024 – Feb 2025**
Core Committee Member *Vellore, Tamil Nadu*

- Led end-to-end planning and execution of a national-level hackathon for 200+ participants, coordinating university approvals, external sponsorship, logistics, and execution while operating under resource constraints.
- Increased event reach and participant registrations by 60% through targeted outreach and data-driven digital marketing, prioritizing channels based on engagement.
- Coordinated student clubs, faculty advisors, and external vendors, resolving stakeholder disagreements and keeping project milestones on schedule and within budget.

Projects

Aneri Enterprise – Digital Business Platform | *Next.js, TypeScript, Supabase, PostgreSQL, Netlify* Live Platform

- Owned the end-to-end development and production launch of a digital platform for a real-world office equipment business, translating business requirements into a searchable product catalog, driver portal, and online enquiry workflow.
- Worked directly with the business stakeholder to prioritize customer-facing workflows, replacing manual product discovery, driver support, and enquiry processes with self-service digital workflows.
- Designed and deployed reliable production workflows for product access, customer enquiries, and usage analytics, incorporating validation, rate limiting, access controls, and secure download handling.

Strategic News Analyzer | *FastAPI, PostgreSQL, Redis, Celery, Next.js, Docker, RAG* GitHub

- Designed and operated a 24/7 multi-source data pipeline coordinating ingestion, deduplication, translation, AI analysis, and persistence workflows to continuously process incoming information without manual intervention.
- Improved pipeline reliability and throughput by separating independent processing stages, introducing background task execution, and designing workflows to handle continuous incoming data.
- Containerized and deployed the system across AWS, Vercel, and Supabase, managing backend, frontend, database, authentication, and infrastructure dependencies through production deployment.

Core Skills

Program & Execution: Project Ownership, Cross-Functional Coordination, Stakeholder Management, Prioritization, Resource Planning, Schedule Management, Process Improvement

Problem Solving: Root-Cause Analysis, Structured Problem Solving, Ambiguity Management, Risk Identification, Troubleshooting, Data-Driven Decision Making

Communication & Leadership: Stakeholder Communication, Conflict Resolution, Team Collaboration, Negotiation, External Partner Coordination, Presentation

Technical Skills

Programming & Data: Python, SQL, C++, Java, PostgreSQL, MySQL

Software & Systems: FastAPI, Flask, React, Next.js, REST APIs, Redis, Celery, Docker, Git/GitHub

Cloud & Deployment: AWS (EC2, S3), GCP, Supabase, Vercel, Netlify

Analytics & AI: Pandas, NumPy, Scikit-learn, Statistical Modeling, Predictive Analytics, LLMs, RAG, NLP

Certifications & Achievements

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate **Jan 2026**
Oracle University

Yantra Central Hackathon | ***Finalist*** **Feb 2025**
VIT Vellore
