Education

Vellore Institute of Technology (VIT)

2023 – 2027

B.Tech in Computer Science and Engineering — CGPA: 9.27 / 10

Vellore, Tamil Nadu

Experience

Marwadi Shares and Finance Limited (MSFL)

May 2025 – Jun 2025

Flutter App Developer Intern

Rajkot, Gujarat

- Built and deployed a real-time internal chat application using **Flutter** and **.NET SignalR**, supporting **100+ concurrent users** during load testing and reducing message response latency by **40%**.
- Implemented **real-time file sharing, read/unread tracking, group chat** features to improve internal collaboration.
- Collaborated with backend teams to optimize API usage and ensure **scalable real-time communication**.

Centre for Social Entrepreneurship and Development, VIT

Apr 2024 – Feb 2025

Core Committee Member

Vellore, Tamil Nadu

- Organized a **national-level hackathon** with **200+ participants**, managing logistics and sponsorships.
- Coordinated **cross-functional teams** to plan initiatives combining technology and community development.
- Increased event reach by **60%** through targeted digital campaigns and strategic engagement across multiple platforms.

Projects

Strategic News Analyzer – Geopolitical Intelligence Dashboard | *FastAPI, React, PyTorch, RoBERTa* 🌐

- Engineered a **FastAPI–React** dashboard aggregating real-time news from **3 APIs** across **8+ languages**.
- Implemented an AI pipeline combining **sentiment, media bias, credibility, and recency** into strategic insights.
- Optimized an asynchronous AI pipeline processing **10 articles** end-to-end in **15s**, with **sub-15ms** vector search latency.
- Optimized a server-side **AI inference pipeline** to deliver **real-time geopolitical intelligence** with low latency.

Phishing URL Detection System | *Python, Scikit-learn, MLflow, Docker, AWS, FastAPI* 🌐

- Developed an end-to-end ML pipeline benchmarking **9 classifiers**, achieving **97.9% accuracy** and **98.1% F1-score**.
- Designed a scalable ML pipeline integrating **Scikit-learn, MLflow**, and automated model lifecycle management.
- Built **FastAPI REST APIs** for real-time phishing prediction using **30+ engineered URL security features**.
- Containerized the application with **Docker** and automated **GitHub Actions CI/CD** deployment to **AWS EC2**.

Aneri Enterprise – Company Product & Driver Platform | *React, Vite, Supabase, PostgreSQL* 🌐

- Built and deployed a **React 19** platform backed by **Supabase PostgreSQL**, serving **1000+ users**.
- Integrated **routing-level analytics** to capture **page visits, product clicks, and driver downloads** in real time.
- Engineered a hybrid data layer using **Supabase PostgreSQL** and **Dropbox** for scalable content and file delivery.
- Optimized frontend architecture with **React, Vite, and Tailwind CSS** for scalable feature development.

Technical Skills

Languages: Python, C++, Java, JavaScript

Core CS Fundamentals: Data Structures, Algorithms, DBMS, Operating Systems, Computer Networks

Backend & APIs: FastAPI, Flask, .NET Web API, RESTful APIs, Server-Sent Events (SSE)

Frontend: React, Flutter, Tailwind CSS, HTML/CSS, NextJS, React Native

Databases: PostgreSQL, SQLite, Firebase, ChromaDB, SQL

Machine Learning / AI: PyTorch, Hugging Face Transformers, Scikit-learn, CNNs, NLP, LLM Pipelines

Tools & DevOps: Docker, Git, Linux, AWS EC2, S3, IAM, MLflow

Certifications

Complete Data Science, Machine Learning, Deep Learning & NLP Bootcamp

Oct 2025

Udemy

Artificial Intelligence A–Z 2026: Agentic AI, Generative AI & Reinforcement Learning

Jan 2026

Udemy

Oracle Cloud Infrastructure 2025 Certified Foundations Associate

Jan 2026

Oracle University
